

Pediatric Specialty

Center: 1 Long Wharf Dr.

Social Story

Resource Developed by the Child Life Program
Yale New Haven Children's Hospital

I will be going to
Long Wharf to see the doctor.

This is what I will see
when I come into the doors of Long Wharf.

I will walk to the elevator.

I will take the elevator to the 2nd floor.

I will go to the Pediatric Specialty Center to check in.

I will check in at this desk.

I will get a bracelet
with my name and birthday on it.

I will wait in the waiting room.

I can watch something on the T.V.

I will go through these doors when my name is called.

I will go to the “weigh in” area for vitals.

I will sit still in the chair.

I will feel a wrap squeeze my arm tight for a short time.

I will feel a thermometer touch my forehead.

I will feel a small, plastic light squeeze my finger.

I will stand on the scale to see how much I weigh.

I will stand still to see how tall I am.

I will walk down the hallway.

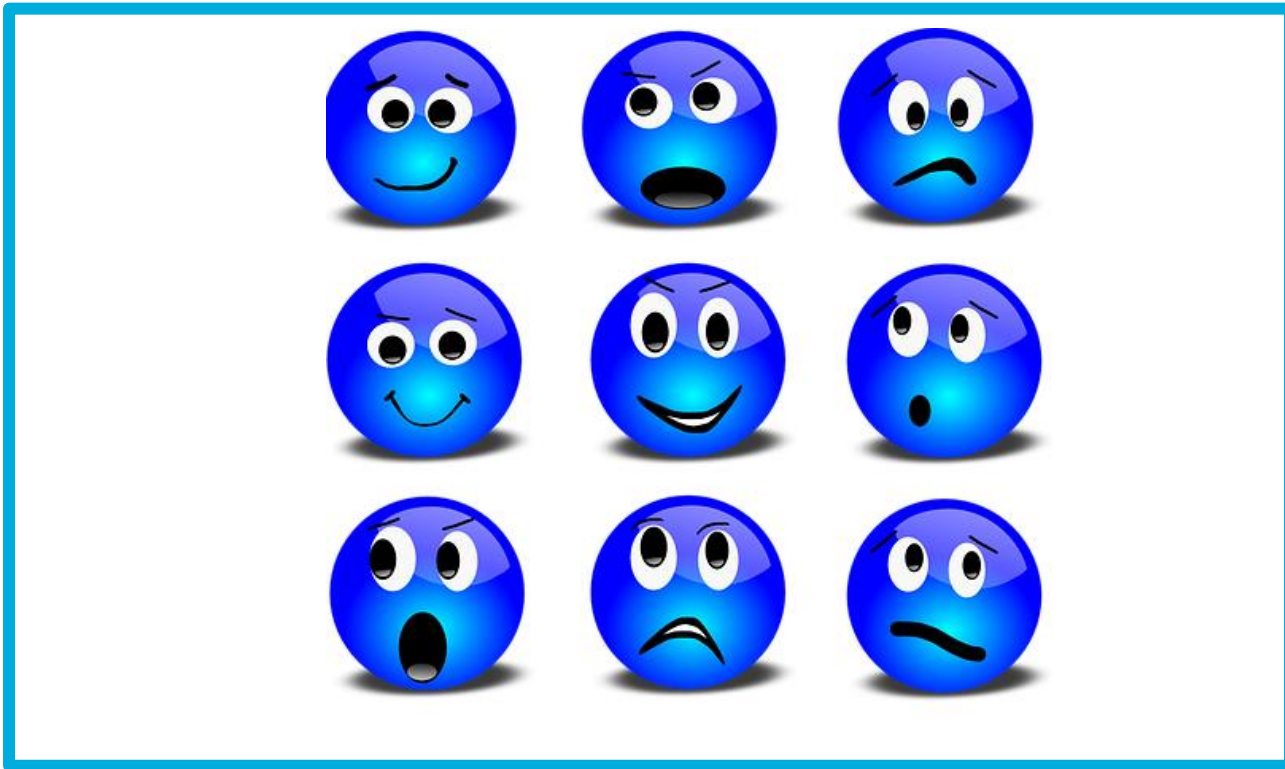

I will go to an exam room to see my doctor.

I am all done and I did a great job!

I feel ...

... about my visit to Long Wharf.

I can ask questions about my visit
to the child life specialist or another staff member.

**The questions I have
are ...**

These things may help me cope better at the Pediatric Specialty Center.
