

X-Ray York St. Campus Social Story

Resource Developed by the Child Life Program
Yale New Haven Children's Hospital

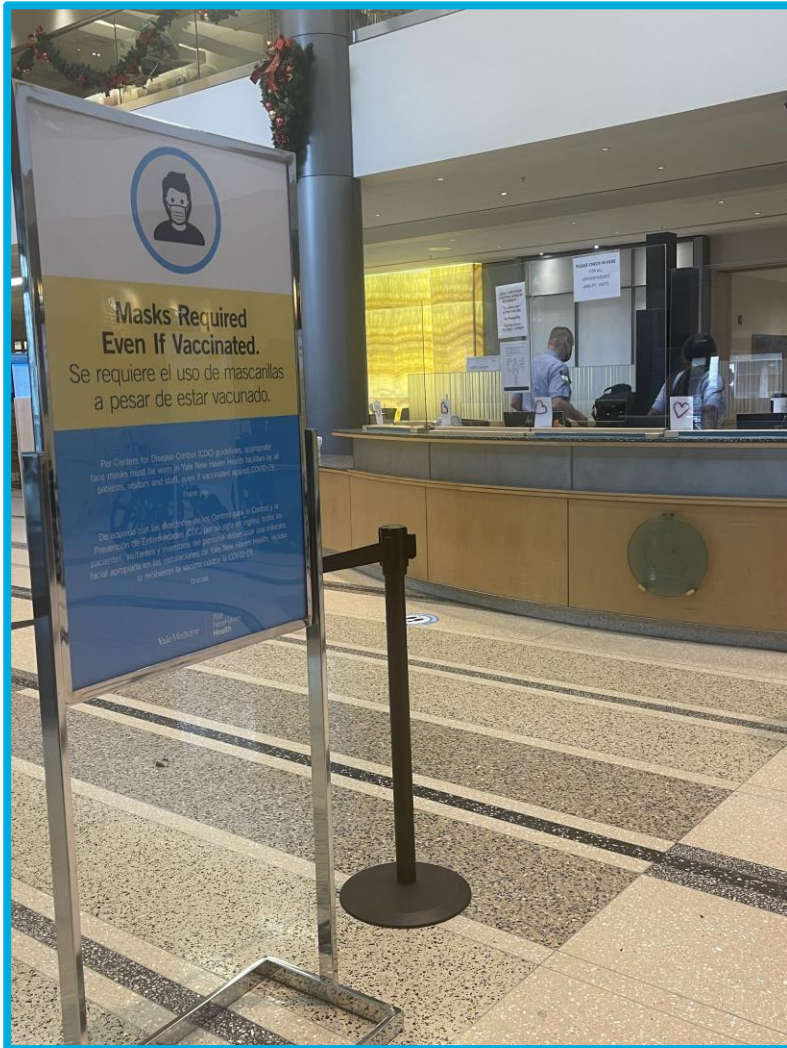

I will be coming to Yale New Haven Children's Hospital. I will come to the Smilow entrance.

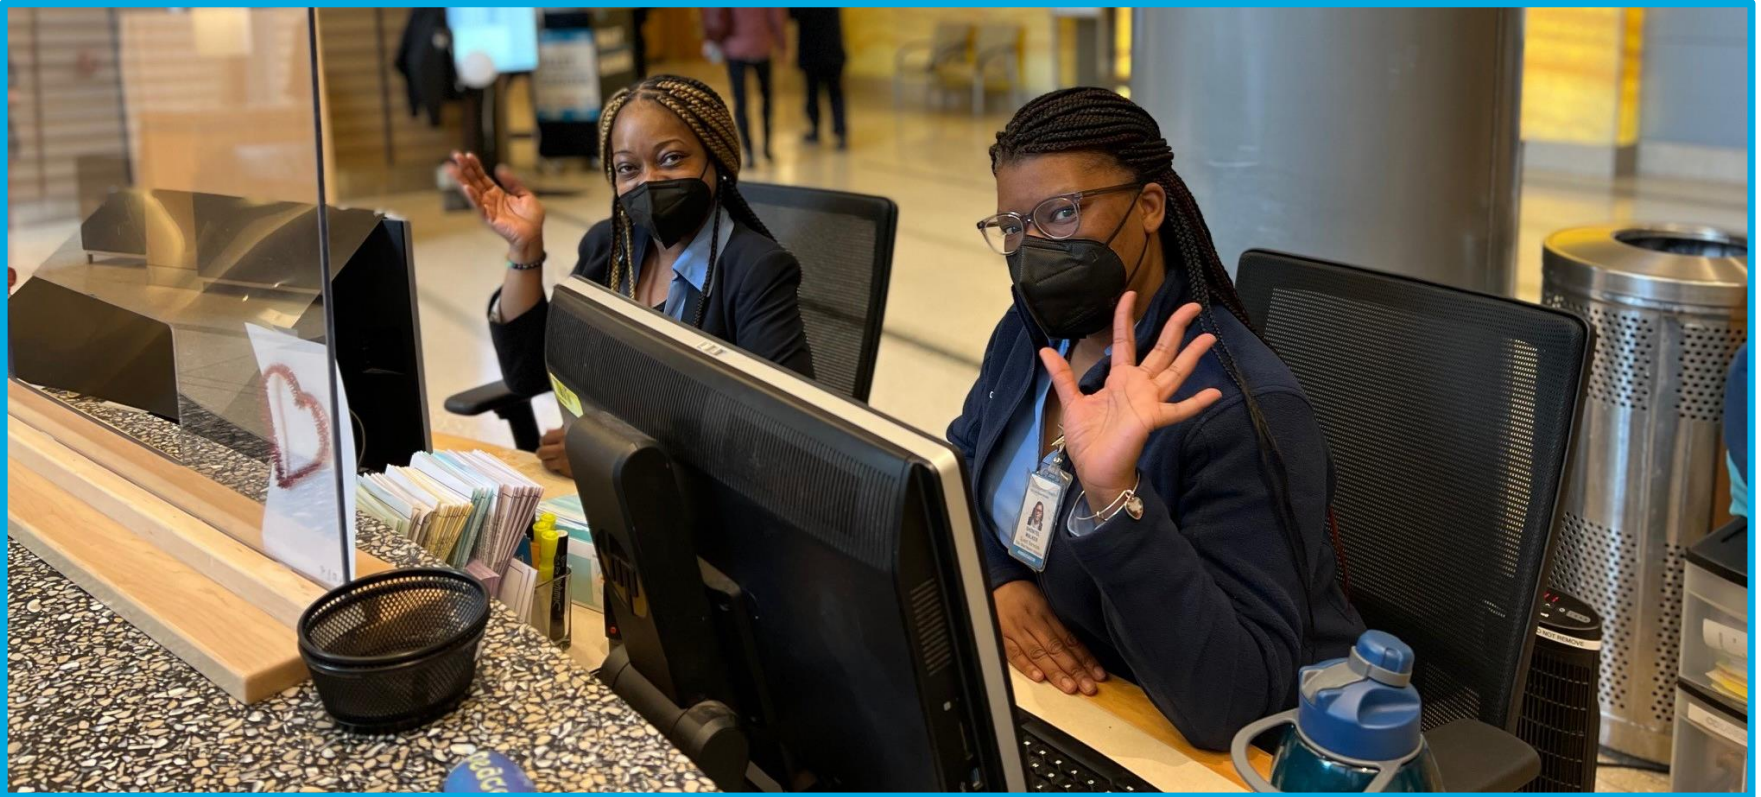

I will get out of the car at the valet.

This is what I will see when I come into the doors of the hospital.

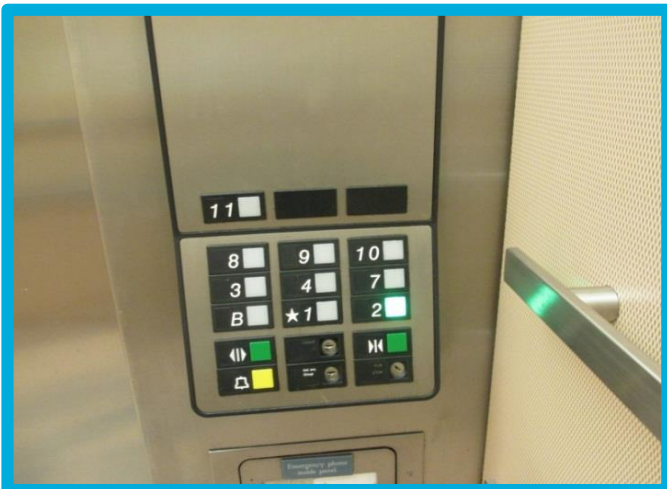

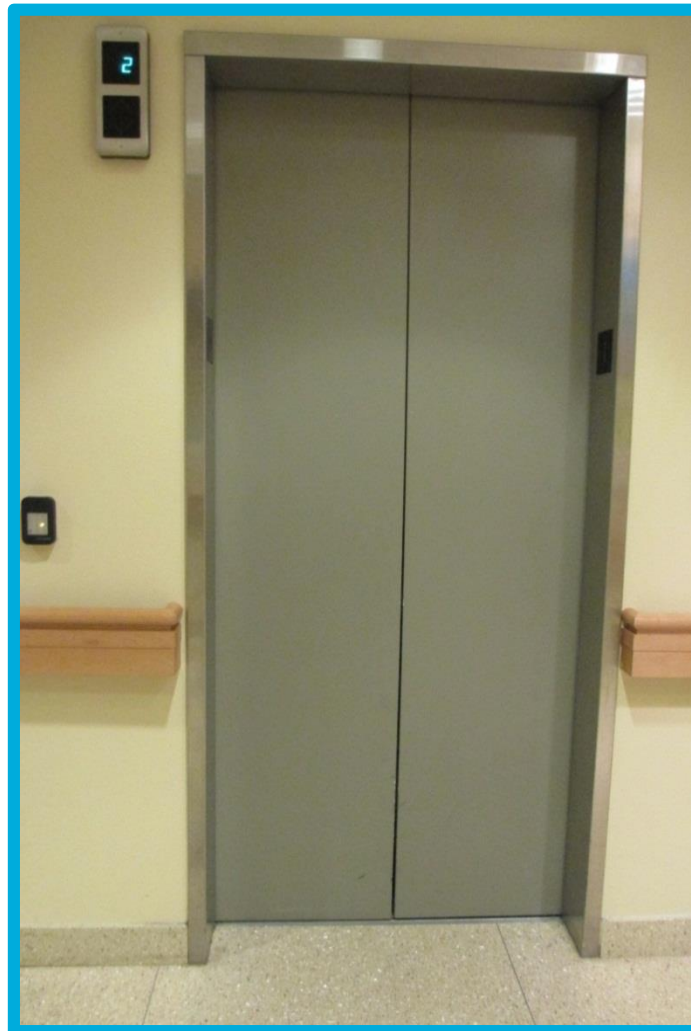

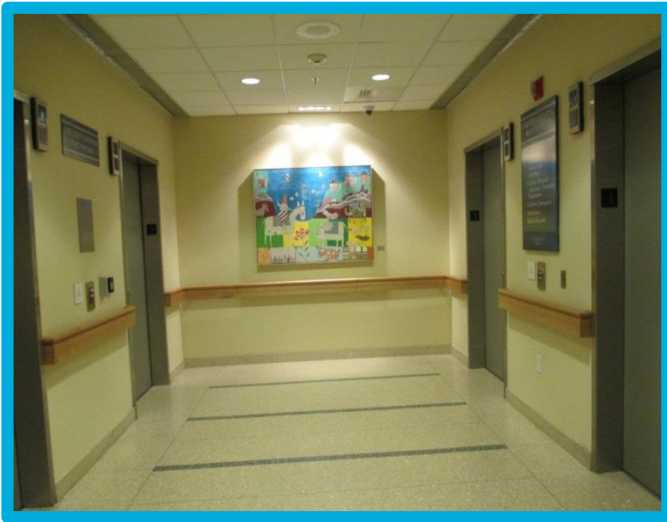

I will check in at the front desk.

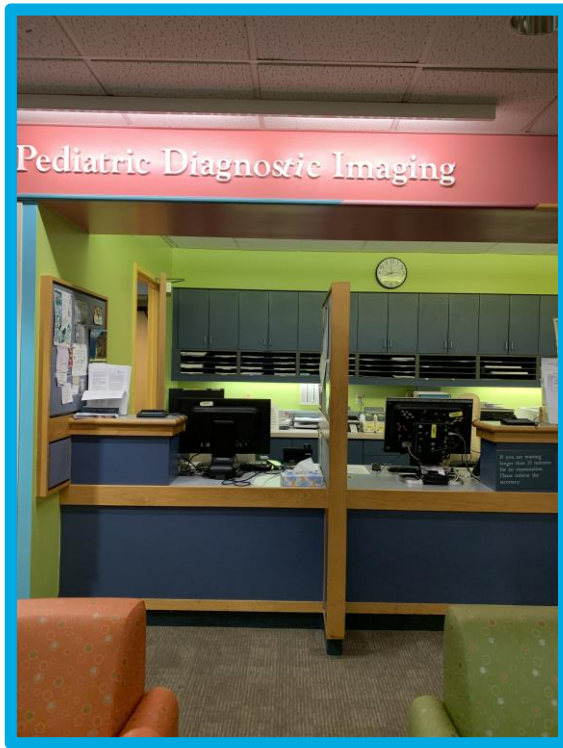

I will walk to the elevator.

I will take the elevator to the 2nd floor.

I will go to the Pediatric Specialty Center to check in.

I will check in at this desk.

A close-up photograph of a light brown teddy bear. The bear is wearing a bright yellow hospital gown. On its right arm, there is a white identification band with the name 'Matt' printed on it. The bear has a large brown nose and black eyes. The background is a plain, light-colored wall.

I will wait in the waiting room.

I can watch something on the T.V.

I can play with the train table.

I will go through these doors when my name is called.

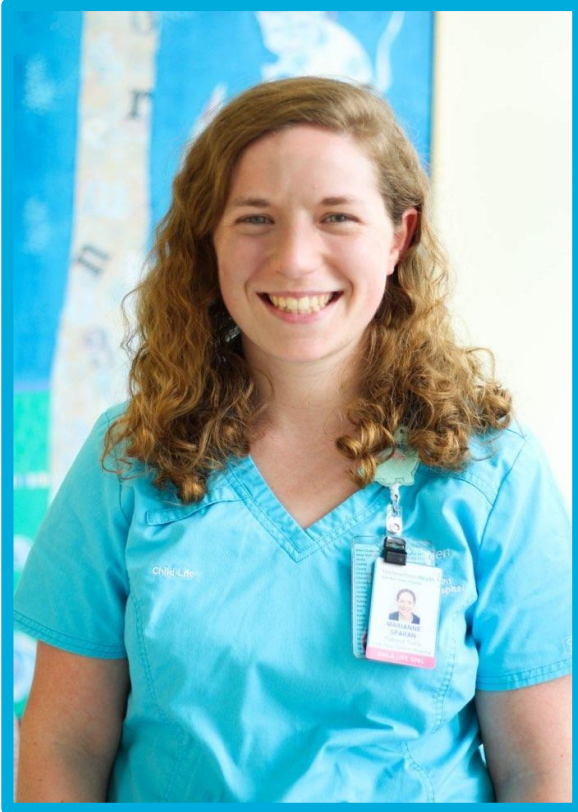

I will walk down the hallway.

I will go to the X-Ray camera room.

I will meet a child life specialist.

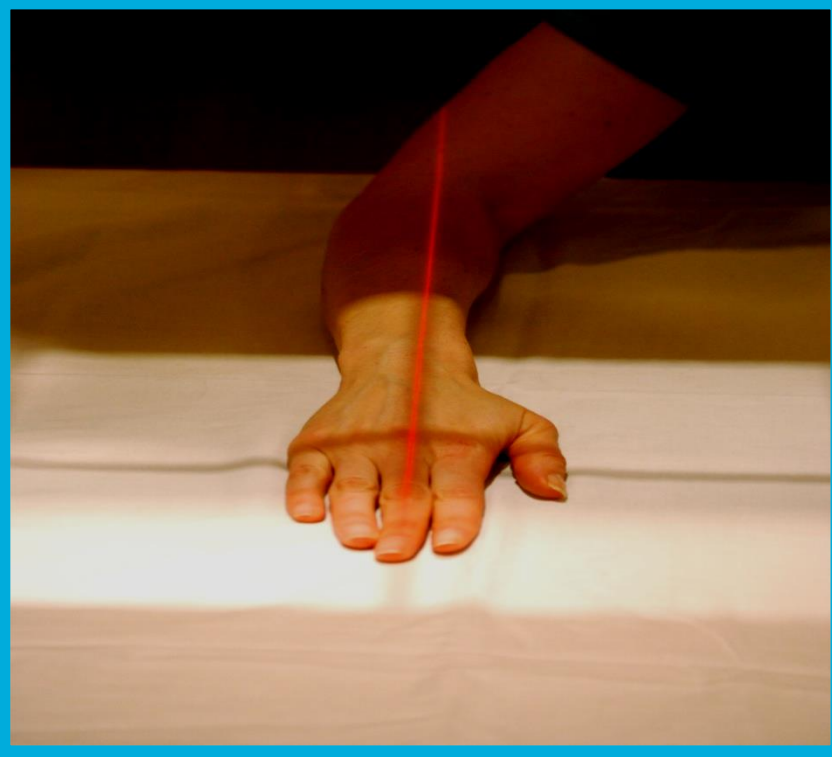

A child life specialist helps me learn about my pictures and makes my X-Rays easier.

I will see my caregiver put on special clothes.

I will hold still while the light shines on my body.

I will hold still while the camera takes my pictures.

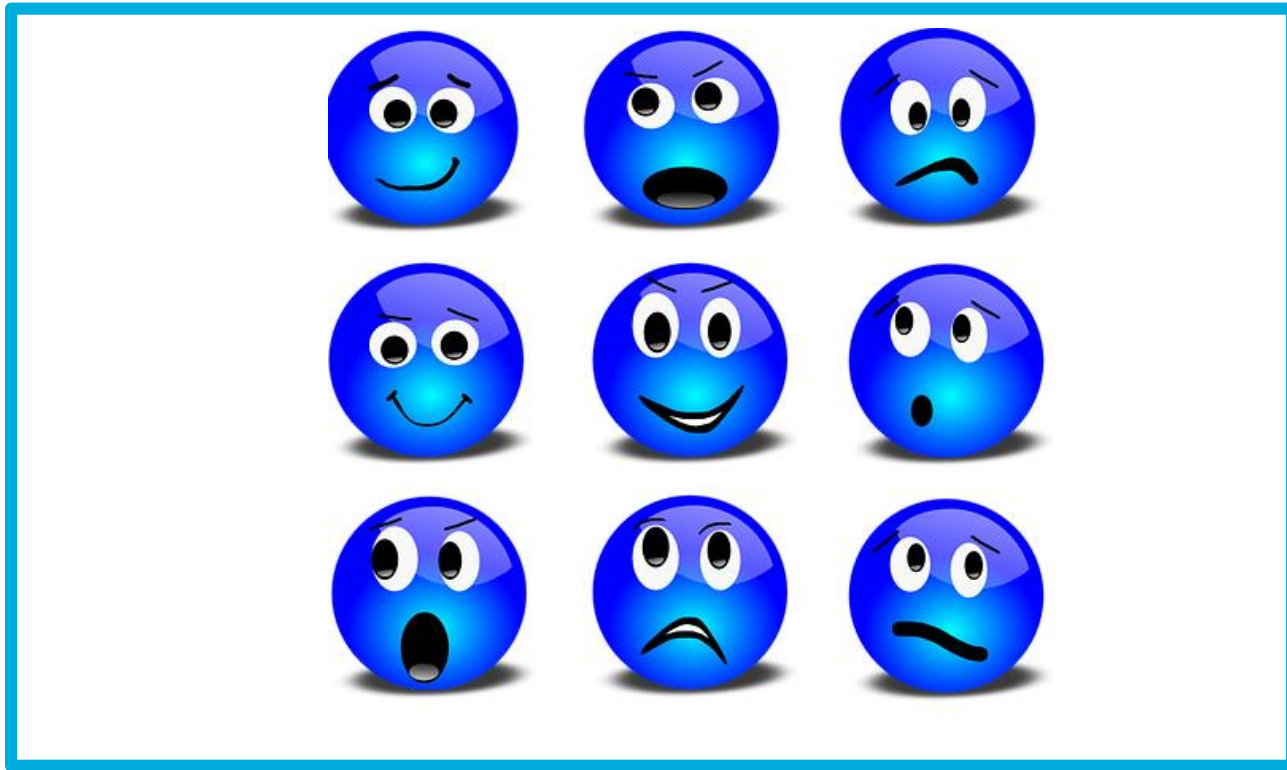

The camera does not touch me. X-Ray pictures do not hurt.

I am all done and I did a great job!

I feel ...

... about my X-Ray pictures.

I can ask questions about my visit
to the child life specialist or other staff member

**The questions I have
are ...**

These things may help me cope better at the hospital.

☐ One person speaks

☐ Buzzy

☐ Freeze spray

☐ EMLA
