

DEA CERTIFICATE DECLARATION

REQUIRED if you do not have a federal DEA certificate.

NOTE: BOTH a CT Controlled Substance Registration and DEA certificate are required to prescribe controlled substances in Connecticut.

1. I do not presently hold the following certificate:

Federal DEA – Controlled Substance Registration

2. Please mark ONE of the appropriate boxes below:

I am a Clinical Fellow at Yale New Haven Hospital (YNHH) and will be utilizing the YNHH DEA. I have registered with the YNHH pharmacy to use the YNHH DEA. I understand that I can utilize the YNHH DEA ONLY when prescribing for YNHH patients. I currently hold a State of Connecticut Controlled Substance Registration in my own name.

I intend to obtain a DEA certificate for my practice and understand that I am not permitted to prescribe controlled substances for patients at Yale New Haven Hospital (YNHH) until I provide the identification number to the Medical Staff Administration Office and they are able to be verified.

I do not intend to obtain or maintain a DEA certification and attest to the fact that due to the nature of my practice I do not require the ability to prescribe controlled substances and will not prescribe them at the YNHH.
